A Pre-Bid Meeting will be held at 14:00 (Kosovo time) on 2 November 2020 ONLY through online Zoom Meeting. Attendance is strongly advised for all prospective bidders or their representatives but is not mandatory.

Remarks by:

Petrit Selimi, CEO, MFK
Burim Hashani, Energy Director, MFK
Arton Çitaku, Procurement Manager, MFK
Marijan Hohnjec, HER IP leader, (Implementing Consultant - The consortium - GFA - HPC AG)
Sarah Olmstead, MCC representative
David McGill, MCC representative

The Subsidies for Energy Efficiency in Kosovo (SEEK) is an MCC-supported project, implemented by MFK with the GFA/HPC Consortium as Implementing Partner (IC). SEEK aims to reduce electricity consumption in the residential sector by piloting subsidies and other incentives to households to invest in energy efficiency measures.

The SEEK project consists of three (3) main intervention packages (IP):

- 1 Household Efficiency Retrofits (HER)
- 2 Apartment Building Efficiency Retrofits (AER), and
- 3 Women Energy Entrepreneur (WEE)

This IDIQ Contract is covenanted in order to implement HER intervention package.

The HER will provide grants to households, i.e. (a) individual houses and (b) apartments within multi-apartment buildings, in form of financing of construction works for energy efficiency measures (EEM). Works Requirements presented in this section relate to those specific (eligible) construction works for energy efficiency measures.
